

Language of Love

Some speak in dialects from some foreign land
Some speak in tongues that no one else understands
Some people bless, some people curse
Some scream in silence, take a turn for the worst
What's the point of all this talking in vain
We've got to build the church & lift up His name
Keep to our vision, when push comes to shove
The Great Commission,
Speak in the language of love

The language of love, speak in the language of love

Some words are prideful, some prophesy
Some words are gossip, while some edify
The tongue can be such a powerful tool
It can build you up or it can cut you in two
It's time we stop our crying, help a neighbor in need
Before the sky splits open, live in unity
Give from the heart, hear the Voice from above
Build them up, speak in the language of love

The language of love, speak in the language of love

The language of love, speak in the language of love

Ooh, we are eager for gifts of the Spirit
Yet we sing a resounding gong
If I have not love, with all these gifts
I have nothing, nothing at all ... no song
Speak in the language of love

The language of love, speak in the language of love
The language of love, speak in the language of love
