

Let the RAIN Come Down

Behold the worthy Lamb, ten thousand million sing
Holy, Holy cross the universe
See the Savior's hands, praise the crimson King
His blood of love was spilled for all the earth

Over purple mountains, over sky blue oceans
Overjoyed by what's to come
Over golden wheat fields, over red-cloud sunsets
Overwhelmed by all You've done

Let the rain come down
Let Your reign come down
Let the rain come down and lift us up to You

Bow before the throne, kneel and feel His face
Shout His holy name on high
Christ the cornerstone, the mercy seat of grace
Mount His Spirit wings and fly

Over clouds of thunder, over-flowing rivers
Overjoyed by what s to come
Over wind-cut canyons, over moonlit waters
Overwhelmed by all You ve done

Let the rain come down
Let Your reign come down
Let the rain come down and lift us up to You

Over mighty forests, over crystal caverns
Overjoyed by what s to come
Over painted rainbows, over starry deserts
Overwhelmed by all You ve done

Let the rain come down
Let Your reign come down
Let the rain come down and lift us up to You

repeat

Let the rain come down...
